

**The Tulalip Tribes**  
**Transportation Improvement Plan (TTIP) - 2021 through 2025**  
**Summary**

	Plan Year 2021	Plan Year 2022	Plan Year 2023	Plan Year 2024	Plan Year 2025
Planning – Work with other departments, public, and council to understand and prioritize needed improvements. Scope and develop priority projects for future years. Develop and update the Tribes' Long Range Transportation Plan and Transportation Improvement Plan	Yearly	Yearly	Yearly	Yearly	Yearly
Asset Management – Update annually the inventory of roads, sidewalks, pathways, guardrails, signals, pavement condition, drainage systems and other elements of the Tribes' transportation network in the reservation. Determine preservation and maintenance needs for prioritization of improvements.	Yearly	Yearly	Yearly	Yearly	Yearly
Right of Way Inventory – Continue to develop the historical record of road right of way within the reservation and document ownership and Operation and Maintenance responsibilities. Identify gaps and needs in clear ownership and responsibility to complete the right of way across all public roads within the reservation. Work with BIA and local agencies to complete or change rights of way as needed.	Yearly	Yearly	Yearly	Yearly	Yearly
Safety – Work with tribal police and other jurisdictions to obtain collision data and other safety information to identify safety improvement needs.	Yearly	Yearly	Yearly	Yearly	Yearly
Transit – Work with the Tulalip Transit department to support their routes and stops needs on the public roads within the reservation.	Yearly	Yearly	Yearly	Yearly	Yearly
Administration - Manage the Transportation Department staff, equipment, and budget needs to deliver the department's program of services.	Yearly	Yearly	Yearly	Yearly	Yearly
Maintenance – Work with the Public Works Maintenance Department to understand maintenance activities on the Tribes' transportation network and identify long term maintenance challenges and develop improvement projects as needed.	Yearly	Yearly	Yearly	Yearly	Yearly
