About Us

The Tulalip Tribes is a federally recognized Indian tribe located on the Tulalip Reservation in the mid-Puget Sound area bordered on the east by Interstate 5 and the city of Marysville, Washington; on the south by the Snohomish River; on the north by the Fire Trail Road (140th St.); and on the west by the waters of Puget Sound. The Tulalip Reservation exterior boundaries

enclose a land-base of 22,000 acres, more than 50 percent of which is in federal trust status. The Reservation is rich with natural resources: marine waters, tidelands, fresh water creeks and lakes, wetlands, forests and developable land. The Tulalip Reservation was reserved for the use and benefit of Indian tribes and bands signatory to the

Treaty of Point Elliott of January 22, 1855. Its boundaries were established by the 1855 Treaty and by Executive Order of President Ulysses S. Grant dated December 23, 1873. It was created to provide a permanent home for the Snohomish, Snoqualmie, Skagit, Suiattle, Samish and Stillaguamish Tribes and allied bands living in the region.

MISSION

Together we create a healthy and culturally vibrant community.

VISION

We gathered at Tulalip are one people. We govern ourselves. We will arrive at a time when each and every person has become most capable.

Introduction

The Tulalip Tribes Services Directory aims to provide information on our departments’ programs and services, and eligibility requirements. The tribe provides many services to its members including early learning/Montessori, higher education assistance, health and dental clinics, a pharmacy, youth activities, a state-licensed chemical dependency recovery program, mental health, senior retirement home, and cultural activities. Contact information is included for each department if you have additional questions beyond what is listed.

92% of our government services, tribal member entitlements, family and senior housing, education, health and dental services, law enforcement, fire protection, infrastructure improvements, and economic growth are funded from within.

We welcome your comments, suggestions, and ideas on ways to improve our services to our tribal citizens and we are honored to serve you!

DON'T LOSE A KID.

SECURE THE LID!

Every year children or pets fall into unsecured septic tanks, often with *tragic* consequences.

Here are some precautions to make your septic system safer:

- Make sure the tank lids are screwed down and secure
- Replace damaged, cracked or broken lids
- A lid without a gasket will allow hazardous sewer gases and foul odors to leak from the tank and spoil your summer
